World Photography Day August - 19

August 19 is observed as World Photography Day, which aims to inspire photographers across the planet to share a single photo with a simple purpose: to share their world with the world. World Photo Day originates from the invention of the Daguerreotype, a photographic process developed by Frenchmen Louis Daguerre and Joseph Nicéphore Niépce in 1837. On August 19, the French government purchased the patent and announced the invention as a gift **"free to the world".**

"I take the same picture twice. First, with my heart, then camera."

- Biju Karakkonam (A famous wildlife photographer)

How to celebrate:

Grab your trusty camera (your smart phone camera will do), and try out these ideas

Category 1: Theme - "Your community"

Explore your community and take pictures of things that catch your eye like nature, household, Market place.

Category 2 : Portraits

Grab a few friends and take portraits of each other.

Last date : 18 August (5 PM) 2021

Best 3 photographs in each category will be awarded !!!

Criteria :

- 1. Photos should contain the name of the camera (phone) used, date & time**
- 2. Photos taken from the website will not be considered.**

Who can participate : Children from grade I - X

Whatsapp unedited photos to your class teacher

Some of the Best Clicks.....Congratulations dear children.
