World Photography Day Celebrated

On the occasion of World Photography day, on August 19, 2022, the Media Club of St. Norbert School organized a Photography competition for students from grades VI to X. The best photos from each grade were selected and certificates of appreciation were awarded to the winners.

A picture can capture hundreds of emotions and moments. With passage of time every photographer develops their style and understands their niche.

Photography can capture expressions, feelings, ideas, and moments instantly and memorialize them for future generations to witness. Photography has played a significant role throughout human history. Today we know how people looked 100 years ago, because all those historic moments have been captured in the photographs and can be looked at forever.

Today we all have cameras in our Phones and we don't realize how magical it works. We can capture each and every moment and it will be immortalized for generations.

Theme for Photographs:

Sl. no	Grade	Theme
1.	VI	My Family
2.	VII	Pets
3.	VIII	Insects
4.	IX	Market / Shops
5.	X	Crops

Thanking you,
Media club
