## WORLD OZONE DAY 2023

St. Norbert School T. Narasipura

# World Ozone Day

16 September 2023

EARTH WITHOUT OZONE  
IS LIKE A HOUSE WITHOUT A  
ROOF

**Date:** 16 September, 2023

**Theme:** “ Preserving ozone, protecting our atmosphere”.

### **Aims & Objectives:**

- The ozone layer, which is a thin layer of gas in the earth’s atmosphere, is crucial in protecting us from harmful uv rays from sun.
- The world still faces significant environmental challenges, including climate change & biodiversity loss, which require urgent action & international cooperation.

- Let us reflect on our responsibility to protect the planet & take action to preserve the ozone layer & other vital natural resources for future generations.
